## What is Transdermal Micro-Nutrition?

The **BodySculpt** system is an advanced development that works on shrinking adipose tissue of fat and therefore eliminating toxins stored there. Our unique non-invasive sculpting technique reshapes the entire body, head to toe, working with the fascia directly under the epidermis. Create the body of your dreams in only 60 minutes?

Results are permanent AND accumulative, unveiling not only a Slimmer Silhouette, but a healthier toxin-free body producing mental clarity and pain-free movement. Schedule a Consultation today for a customized plan for you and become the best you today!
